

IRON^{BALTIC}

Helping to make your vehicle all it can be!

ATV & UTV ACCESSORIES

QUADIVATOR

ECO

Iron Baltic Ltd is active in producing and supplying ATV / UTV accessories. Iron Baltic's main products are skid plates, snow plows and coupling devices for ATVs and UTVs. Total of 70% of the products the company offers are Iron Baltic own manufactured products, while a further 30% of them are imported, supplied elsewhere. Iron Baltic's company vision and objective is to offer wide range of accessories and coupling devices for ATVs / UTVs and promote the use of ATVs / UTVs for just about any operation possible.

IB products are designed by keeping in mind the specific needs of Northern European countries, they are well known for their excellent quality and ingenious solutions. Our main products include skid plates, snow plows, and various coupling devices.

ECO - products are imported, improved, and packaged by Iron Baltic. A more affordable line of products for a budget conscious user. The main products in this area include various forms of coupling device, plus luggage and cargo baskets.

Quadivator - innovative ATV and UTV products made in Canada. Products are designed for simple installation and ease of use. Quadivator products include agricultural implements as cultivators, tandem discs, harrows, snow blowers, rakes and mowers. Iron Baltic have exclusive sales rights for Quadivator products in Europe.

ALUMINIUM SKID PLATES

Material	Corrosion resistant, brushed marine aluminium
Thickness	4mm
Info	Full protection of bottom and the front part of the ATV Openings for mud draining and washing Holes for oil changing Holes for plow mounting kits Fasteners and instructions are enclosed

Iron Baltic aluminium skid plate kits are made from marine grade aluminium, which is the hardest aluminium that can still be mechanically processed. The aluminium is shaped using CNC cutting, the sides are then CNC bent, and the corners of the bent sides TIG welded. The outcome is a structurally rigid skid plate that is strong and durable even in extreme conditions. Iron Baltic skid plate kits come complete with arm guards and full mounting hardware required for installation.

PLASTIC SKID PLATES

Material	Plastic (PE HWU)
Thickness	10mm
Info	Full protection of bottom and front part of the ATV. Openings for mud draining and washing. Holes for oil changing. Holes for plow mounting kits. Fasteners and instructions are enclosed.

Iron Baltic plastic skid plate kits are made from high density polyethylene HDPE (PE-HWU), which does not dent like aluminium, has excellent sliding properties and high chemical and UV resistance. The material remains very tough even at low temperatures (even at -50°C / -58°F) but is still flexible enough not to deform and regain its shape after an impact. Plastic skid plates are structurally rigid and durable with low friction properties offering easy and safe operations even in extreme conditions. Iron Baltic skid plate kits come complete with arm guards and full mounting hardware required for installation.

MID-MOUNT PLOW SYSTEM

Mid-mount plow system for snow removal or soil planning. The plow mounts under the vehicle with a model specific or universal mounting adapter. The mid-mount plow system is available in many configurations - with different type and size of plow blades or as a push broom instead. Wide selection of optional accessories are available for the mid-mount plow - side extensions, marker antennas, rubber lips for the plow blades and hydraulic or electro-hydraulic control and movement kits for the plow system, see plow accessories on page 22-24.

- 5-position adjustable working position
- Spring-loaded resistance absorber
- Adjustable working angle
- Sliding shoes for height adjustment

Adapters	Code
Universal mid-mount adapter	03.4000

Model specific adapters seen in the "Mid-mount adapters" table, page 118–127.

FRONT-MOUNT PLOW SYSTEM

Front-mount plow system for snow removal or soil planning. The plow mounts with a model specific adapter on front of the vehicle using a self-locking quick attach system. Front-mount system completes with different type and size of plow blades, or a push broom. With variety of optional accessories available, it can also be turned into a bucket or use with hydraulic or electro-hydraulic control and movement kits, see plow accessories on page 22–24

- 5-position adjustable working position
- Spring-loaded resistance absorber
- Adjustable working angle
- Sliding soles for height adjustment
- Self-locking fastening system (quick and easy installation)
- Does not affect vehicle clearance
- High plow lift

Fitment information on model specific adapter and matching push tube version (standard/narrow), find from the table "front mounting adapters" on page 118-127.	

UTV FRONT-MOUNT PLOW SYSTEM

A front-mounted plow system with reinforced coupling / locking mechanism for mounting the equipment with a model specific adapter on UTV-s or other larger side-by-side vehicles. UTV front mount plow system completes with different size of standard plow blades and high-throw plow blades or a push broom. Additional accessories such as blade extensions or rubber lips, bucket conversion kits and hydraulic or electro-hydraulic control and movement kits are available, see plow accessories on page 22–24.

- Reinforced construction
- 5-position adjustable working position
- Spring-loaded resistance absorber
- Adjustable working angle
- Sliding shoes for height adjustment
- Self-locking fastening system (quick and easy installation)
- Does not affect vehicle clearance
- High plow lift

STANDARD PLOW BLADES

The standard construction plow blades are suitable for snow removal or soil planning. Optional accessories include a blade extension, a bucket attachment, or a rubber blade.

Working height 450mm

Working width 1280mm / 1500mm / 1800mm

Standard blades	Code
Blade 1280mm	04.100
Blade 1500mm	04.300
Blade 1800mm	04.800

PLASTIC BLADES

The plastic plow blades produced using a rotational molding method are suitable for snow removal and surface planning. The plow blades are made of special cold-resistant plastic that has excellent gliding properties, corrosion resistance and chemical durability.

Working height 580mm

Working width 1520mm

Plastic plows	Code
Plastic blade 1520mm	20.7700

HIGH-THROW BLADES

High-throw, curved asymmetrical plow blades are designed for faster snow clearing, the top mounted plastic extension prevents snow being thrown over the upper edge and directs it to higher on sideways instead. Perfect tool for snow removal from a roadway.

Working height 410 - 660mm

Working with 1500mm / 1800mm

High-throw blades	Code
High-throw blade 1500mm	20.7200
High-throw blade 1800mm	20.7300

PUSH BROOM

Push Broom is suitable for the toughest sweeping needs, cleaning agricultural, commercial and industrial debris, rubbish, leaves and even snow, withstanding water and industrial spills. Perfect for maintaining hard surface trails, sidewalks, driveways and sweeping out storage sheds or pole buildings. Push broom is equipped with easily replaceable polypropylene brushes.

Working height 300mm

Working width 1500mm

Product	Code
Push broom 1500mm	20.1000

ACCESSORIES FOR PLOWS

HYDRAULIC CONTROL

Hydraulically controlled turning and lifting / down pushing of the plow allows also the ground soil planning works in addition to the usual snow pushing purpose. Additional information about hydraulic power unit page 100–101.

Turning	Code
Hydraulic Power Unit	71.0000
Turning cylinder hardware kit	71.2600
Hydraulic cylinder with hoses	71.3100

Lifting	Code
Hydraulic Power Unit	71.0000
Hydraulic cylinder with hoses	71.3100

HYDRAULIC CYLINDER WITH HOSES

TURNING CYLINDER HARDWARE KIT

HYDRAULIC CYLINDER WITH HOSES

ELECTRO-HYDRAULIC CONTROL

Electro-hydraulically controlled turning and lifting / down pushing of the plow allows also the ground soil planning works in addition to the usual snow pushing purpose.

Iron Baltic offer electro-hydraulic cylinders by MAP (Korea) and JDR (China), as well as different sets of control panels with power cables. Additional information about electrohydraulic cylinders page 102.

Turning	Code
Cylinder MAP / JDR	70.700 / 70.500
Turning cylinder hardware kit	71.2600
Cable set (1-cylinder control)	70.2500

Lifting	Code
Cylinder MAP / JDR	70.700 / 70.500
Cable set (1-cylinder control)	70.2500
Model specific lifting cylinder adapter see page 118–127.	

Turning and lifting	Code
Cylinder MAP / JDR (2tk)	70.700 / 70.500
Turning cylinder hardware kit	71.2600
Cable set (2-cylinder control)	70.2600
Model specific lifting cylinder adapter see page 118–127.	

BUCKET CONVERSION KITS

Suitable for mounting on 1280mm or 1500mm standard plow blades and to complete the kit with front-mount system push tubes. For more information on plow buckets see pages 34–35.

Product	Code
Bucket conversion kit 1280mm	20.6600
Bucket conversion kit 1500mm	20.6650
Mechanical tilt kit	20.6620
Hydraulic tilt kit *	71.10200

* 71.0000 Hydraulic Power Unit is required for hydraulic tilt assembly.

RUBBER BLADES

Rubber blades produced from durable 10mm thick sheet polyurethane.

Product	Product compatibility	Code
Rubber blade 1280mm	04.100	20.6510
Rubber blade 1500mm	04.300 / 20.7200	20.6520
Rubber blade 1520mm	20.7700	20.6560
Rubber blade 1800mm	04.800 / 20.7300	20.6530

BLADE EXTENSIONS

Side extensions fitted on standard blades increase working width 150mm.

Product	Code
Blade extensions	04.600VP

PLOW SIDE MARKERS

The plastic plow side markers are suitable for mounting on standard blades.

Product	Code
Blade side antenna markers	20.4000

SNATCH BLOCKS

Snatch blocks help the plow to be lifted higher and extend the working cycle of the winch cable.

Product	Code
Snatch block	14.10200

PLOW LIFT STRAP KIT FOR A WINCH

Lifting strap kit that replaces a winch rope or cable. Ideal for use when working with plows, buckets, or other front mounted devices (when lifting with a winch). The lifting strap has a significantly longer work-life than the wires or ropes originally installed on winches. The set includes a lifting strap and a special large roller strap guide.

Product	Code
Lifting strap with roller	14.11300

SPARE PARTS FOR PLOWS

Extension spring 8x50x200 (heavy-duty)	OT.11.01.050

MID-MOUNT V-PLOW SYSTEM G2

The mid-mount V-plow version is a professional snow removal tool which is mounted bottom of the vehicle using a model specific adapter. The plow has two independently adjustable wings. The steel parts of both wings are equipped with spring-loaded resistor dampers to avoid damage to the plow or vehicle in case of running it into objects on the road. The mid-mount V-plow kit can be assembled with 1500mm or 1800mm wide blades. Optional accessories like rubber extensions, rubber shields, rubber blades or electric / hydraulic plow movement control sets are available additionally.

- Working height 400 - 600mm
- Working width 1500mm / 1800mm
- Different working positions (V position, straight, A position)
- Spring-loaded resistors
- Adjustable working angle
- Sliding shoes for working height adjustment

Push tubes	Code
Mid-mount, standard	34.2200
Mid-mount, extended, track fitted / high clearance vehicles.	34.2900
Blades	Code
V-Blade 1500mm	34.3500
V-Blade 1800mm	34.3800
Blades	Code
Universal mid-mount adapter	03.4000
Model specific adapters in the "Mid-mount adapters" table, see page 118–127.	

FRONT-MOUNT V-PLOW SYSTEM G2

The front-mount V-plow version is a professional snow removal tool. The plow mounts via self-locking, quick attach coupling system to the front of the vehicle using a vehicle model specific mounting adapter. The plow has two independently adjustable wings. The steel parts of both wings are equipped with spring-loaded resistor dampers to avoid damage to the plow or vehicle in case of running it into objects on the road. The front-mounted V-plow can be used with 1500mm wide blades. Optional accessories like rubber extensions, rubber shields, rubber blades or electric / hydraulic plow movement control sets are available additionally.

- Working height 400 - 600mm
- Working width 1500mm
- Self-locking fastening system (quick and easy installation)
- Different working positions (V position, straight, A position)
- Spring-loaded resistors
- Adjustable working angle
- Sliding soles for height adjustment

Push tubes	Code
Front mount, standard	34.3400
Front mount, narrow	34.3600
Front mount, UTV	20.7400
Blades	Code
V-Blade 1500mm	34.3500
V-Blade 1800mm	34.3800
Use only with 34.4000 UTV front mount push tube.	
Adapters	
Fitment information on model specific adapter and matching push tube version (standard/narrow), find from the table "front mounting adapters" on page 118–127.	

V-PLOW ACCESSORIES

HYDRAULIC TURNING

The hydraulic turning kit allows you to adjust the working angles of both wings without leaving the driver's seat. Read more about the hydraulic power unit on page 100–101.

Turning	Code
Hydraulic Power Unit	71.0000
Hydraulic cylinder with hoses G2 V-Plow 1500mm (2 x 71.10000)	71.10000
Hydraulic cylinder with hoses G2 V-Plow 1800mm (2 x 71.3100)	71.3100
Extension hoses (UTV)	Code
Extension hoses 3500mm	71.100

HYDRAULIC
POWER UNIT

HYDRAULIC CYLINDER WITH HOSES

RUBBER BLADES

10mm thick rubber blades made of polyurethane (PU) sheet to replace the original steel blades. The rubber blade is double sided. Flip the blade around to other side when one side is worn.

Rubber blades	Code
Rubber blade G2 1500mm	34.3700
Rubber blade G2 1800mm	34.3100

RUBBER EDGES

Rubber edges made of polyurethane sheet increase working width by 200mm and simplify cleaning of curbs and squares with curbs.

Rubber edges / extensions	Code
Side wings, pair	34.3200

DEFLECTOR KIT

Deflector kit to prevent snow from throwing over the top edge of the blade.

Deflectors	Code
Deflector kit, set G2 1500mm	34.3900
Deflector kit, set G2 1800mm	34.3300

Rubber cover	34.3420
Height adjuster, pair	20.750
Rod kit	20.6270
Latches, pair	20.6280

PLOW BUCKETS

Light material buckets are designed for the removal of snow, sawdust, wood chips, manure, peat and other lightweight materials. The bucket set completes from a front-mounted standard blade with a width of 1280mm or 1500mm (see p. 16–19) and an additional bucket conversion kit which forms the base and sides of the bucket around the plow blade. Dumping / tilting the bucket works with a mechanical dumping release (only bucket 1280 mm) or hydraulically.

- Quick and easy installation
- Automatic bucket return & locking system (mechanical tilt)
- Working width 1280mm / 1500mm
- Capacity 130L / 150L
- Max load 50kg

Mechanical bucket 1280mm	Code
Bucket conversion kit 1280mm	20.6600
Mechanical dump / tilting kit	20.6620
Plow blade 1280mm	04.100
Front mount push tubes standard / narrow	20.6200 / 20.6400

Model specific lifting cylinder adapter see page 118-127.	

Hydraulic hose extension	Code
Hose extension 3500mm	71.100

2-IN-1 MODULAR PLOW BUCKET

An effective multi-purpose piece of equipment that can be used for cleaning, planing and handling. The modular plow bucket combines a **LOADER** and **PLOW** in one. This means that when the bucket module is removed, the loader becomes a plow suitable for pushing work. The advantage of this equipment is the openable base of the bucket that allows it to be emptied in a raised position. Emptying the bucket can be done by either tilting a lever by the driver's seat or hydraulically with a hydraulic cylinder (among its accessories).

The installation requires a model-based front mounting system adapter attached to the ATV (see adapters on page 107 - 115) and front winch (with a strong wire, rope or lifting strap) that assists the raising and lowering of the bucket.

Use of the equipment with more powerful (over 800 cc) and heavier ATVs or UTVs with a stronger suspension is recommended.

- Bucket working width 1 280 mm
- Bucket capacity 108 litres
- Bucket load capacity 50 kg
- Plow working width 1 280mm (with extenders 1 600 mm)
- Plow working height 360 mm
- Obstacle dampening with springs
- Skid shoes to adjust working height
- Special ball locking, quick coupling pins
- 5 positions of adjustable, plow-working positions
- The working angle and length of the tilting lever are adjustable according to the vehicle

2-1 Modular plow bucket (manual)	Code
2-1 Modular plow bucket	20.7600

SAND SPREADER G2-500 PRO

The towable, larger, increased capacity G2-500 PRO sand, salt and gravel spreader is a practical and economical piece of equipment suitable for winter maintenance of yards, walking paths and driveways. The spreader shaft is driven by a mechanical transmission from the spreader wheels. The wheels are equipped with clutches that allow driving without spreading, if necessary.

- Working (spread) width 1028mm
- Wheel transmission
- Adjustable spread rate
- Shaft for breaking and mixing bulk material
- For bulk materials (sand, gravel, salt) with a fraction up to 8mm
- Hub locks for adjusting the working and transport position
- Durable 8mm thick natural rubber parts.

Product	Code
Sand spreader G2-500 PRO	52.5000
Accessories	Code
PVC Cover	52.5100
Towing eye 360 degree turning for pin type hitch	22.050S
Spare parts	Code
Rubber band front	52.5029
Rubber band rear	52.5030
Wheel clutch lock	OT.51.01.010

UNIVERSAL SPREADER / SEEDER

QUADIVATOR²

Universal spreader with simple construction is an effective tool for winter slippery roads control or summer agricultural work. Suitable for spreading sand, salt, seeds, feed, fertilizer and other materials. With the supplied mounting accessories, the spreader can be mounted on the luggage rack of the vehicle or into a 50mm (2") hitch receiver.

- Capacity 57L
- Working width (spread width) up to 9 meters
- Adjustable spread rate
- 12V DC motor, power cable (2,7m) with switch

Product	Code
Universal spreader	52.4000

ROTARY BROOM

The rotary broom is an efficient tool for removing snow, fallen leaves, sand, debris etc., from roads, streets, walking paths and squares. The broom, that functions with a petrol motor, has a shaft fitted with replaceable polyurethane brush discs which, while rotating, will successfully clean different surfaces. The broom has two supporting wheels which, depending on the work conditions, can be installed in front of, to the sides of or to the rear of the broom. Front mounting the support wheels allows for the easy cleaning of pavement edges, and side mounting assists the brushes in plowing the surface. The supporting wheels also regulate the working height. The work and transport position are adjustable with the front winch of the vehicle. The broom is mounted to the vehicle via model specific mid mount adapter.

Product	Code
Rotary broom 6,5hp (Briggs&Stratton)	48.0000
Rotary broom 4,8hp (Honda GX160)	48.0000A
Accessories	Code
Extended push tube for tracks fitted ATV	04.700S
Spare parts	Code
Brush disk 1pc (broom has total 43 discs)	OT.22.02.010

* Model specific mid-mount adapter required for installation, see page 118-127.

- Working width 1270mm
- Rotation speed 250-450 rpm
- Replaceable polypropylene bristles (450mm diameter)
- Adjustable working angle in 5 different positions

- Adjustable support wheel position

- Transport and working position adjustable with vehicle winch

- Adjustable working height

SNOW BLOWER

A snow blower is the most efficient tool for snow removal. It is possible, with a blower, to move snow many metres away with very little effort, best suited for Nordic and also mountains areas with larger amounts of snow. It is best suited for the winter maintenance of roads and squares.

Iron Baltic snow blowers range vary in between different working widths and engine options. Low powered (13hp/14hp) versions are designed foremost for lighter snow removal works. We recommend using snow blowers with a stronger engine (18hp) for the removal of thicker layers of snow and the wet snow.

The universal adjustable telescope coupling frame allows for the quick and easy attachment of the snow blower to most ATVs or UTVs that have rear ball type hitch fitted. The coupling frame is attached to the rear towing hook and to front suspension arms via tension adjustable chains. The installation time, depending on vehicle and experience could be as less as 5 minutes.

An ATV front winch (min 1500lbs) and towing hook are required for installation!

- Working width 1250mm / 1800mm
- Working height 500mm
- Ejection distance approx. 15 meters
- Electric motor adjustment the ejection tube via on board control panel
- Telescopic mounting frame adjustable to machine length
- Transport position and working position (adjustable with ATV winch)
- Safety bolts to prevent damages from obstructions

SNOW BLOWER 1250MM (ATV)

SKI TRACK MAKER

The ski track maker is suitable for preparing and maintaining ski tracks. It is suitable for coupling the ATV and UTV (with snow tracks fitted recommended) or snowmobile. It is possible to prepare a 2.3-metre-wide freestyle track by compressing the snow with the ski track maker, a classic style track can be made by fitting an additional classic track setter to the rear of the ski track maker unit.

- Working width 2300mm
- Classic track width 230mm
- 3 positions to fit the classic track setter (sides and center)
- Possible to add ballast weight (sandbags, etc.)
on classic track setter for more efficient compression of snow
- Easily adjustable ice blade for ski trail maintenance
- Support wheels for transport position. In transport position the device is lifted 200mm above the ground

Product	Code
Ski track maker (includes classic track setter 1pc)	47.0000
Accessories	Code
Classic track setter	47.1000
Spare parts	Code
Middle plastic blade	47.026
Left plastic blade	47.029
Right plastic blade	47.030

CLASSIC TRACK SETTER

The classic track setter is a simple construction design, reliable product for preparing classic ski tracks. It can be coupled an ATV, UTV, snowmobile or a small tractor. Possible to add ballast weight (sandbags, etc.) on classic track setter for more efficient compression of snow.

- Working width 1100mm
- Classic track width 230mm
- Adjustable tow bar length
- Set includes coupling for a 50mm ball hitch and towing eyelet for a pin type hitch.

Product	Code
Classic track setter	47.2000
Spare parts	Code
Left plastic blade	47.029
Right plastic blade	47.030

CARGO SLED

The cargo sled is a well-constructed sled with a large base bed area suitable for transporting large, bulky and heavy loads. The sled is made of 8mm thick PE-HWU plastic, which is light, UV resistant, slippery and durable even at temperatures as low as -50C.

- Length 2900mm
- Width 1200mm
- Height 200mm
- Eyelets for securing the load
- Anti-slip guides
- Set includes coupling for a 50mm ball hitch and towing eyelet for a pin type hitch connection

Product	Code
Cargo sled	22.000

SKI SLED

Aski sled is a sled intended to use coupled with an ATV, UTV, snowmobile or a small tractor. The sled has a galvanised, powder coated steel construction frame and a humidity-resistant plywood platform ensuring durability even in damp winter conditions. High clearance, special wavy ski profile, plastic sliding surface and spring suspension ensure good pastability and stability. It features removable spacers and platform guards for fastening and transporting different goods.

- Platform dimensions 800 x 2250mm
- Platform height 300mm off the ground
- Ski dimensions 180 x 1750mm (2 skis)
- Galvanized and powder coated steel construction
- Waterproof plywood platform
- Spring shock absorbers on skis
- Plastic ski slides
- Removable struts
- Load restraint guards
- Set includes coupling for a 50mm ball hitch and towing eyelet for a pin type hitch connection

Product	Code
Ski sled	41.0000
Spare parts	Code
Ski kit	41.1000
Shock absorber	41.007

TIMBER SLED

A sled with skis for transporting logs up to 5 metres. The sled consists of two swivel jointed freight frames with an adjustable gap allowing for the adjustment of the sled length according to the length of the transportable logs. Removable spacers facilitate the loading of the cargo. Suitable for use coupled with an ATV, UTV, snowmobile or small tractor.

- Frame dimensions 750 x 850mm (2 frames)
- Ski dimensions 180 x 1750mm (4 skis)
- Adjustable distance between frames 2500–2900mm
- Suitable for transporting logs up to 5 meters in length
- Galvanized and powder coated steel construction
- Plastic ski slides
- Removable struts
- Set includes coupling for a 50mm ball hitch and towing eyelet for a pin type hitch connection

Product	Code
Timber sled	42.0000

TRAILER IB-165

The IB-165 Offroad trailer is a platform trailer to use with small tractors and off-road vehicles. The trailer's wide, high clearance off-road style tyres ensure good off-road passage and capability. The tiltable cargo box with completely removable side boards allows the platform trailer to be used for transporting bulk spread or heating materials (e.g. firewood), pallets and boxes etc. Available additionally are gas spring, hydraulic and electro-hydraulic as tilting accessories, and the cargo box board extenders and PVC cover.

TRAILER IB-165 OFFROAD

- Cargo box dimensions 1197 x 348 x 1605mm
- Tie down anchors for cargo straps
- Taillights (including turn signals / indicators, stop lights, license plate lights)
- Standard 7-pin connector for powering the trailer lights

TRAILER OFFROAD 500

Offroad 500 is a simple solidly constructed trailer for household use. The tiltable cargo box allows for the transportation of leaves, soil, firewood, waste etc. After removing the front and rear panels, logs up to 2.5 meters in length can also be successfully transported. Height extenders, PVC covers, and various tilting solutions for the cargo box can be attached as accessories.

- Load capacity 500 kg
- Off-road tires 22x11-8"
- Tiltable cargo box
- Removable front and rear panels
- Removable cargo box height extenders (optional accessory)
- Cargo box dimensions 1 500 x 1 100 x 550 mm

OFFROAD 500

TRAILER OFFROAD PRO 1200

Offroad PRO 1200 is a solidly constructed trailer for larger capacity household work. A compact solution, tandem axle and wide terrain tires ensure good terrain passage and allows for access to places that are typically inaccessible with larger gauge equipment. The 1 400 L capacity cargo box with removable height extenders can be used to transport loads up to a weight of 1 200 kg. After removing the front and rear panels, it is possible to also transport logs successfully up to 3 meters in length.

A tilting crane for the cargo box that can be operated with a manual or electrical winch is available as an accessory.

- Load capacity 1 200kg
- Off-road tires 22x11-8"
- 360° swivel hitch coupler
- Adjustable supporting wheel
- Tiltable cargo area
- Removable front and rear panels
- Removable cargo box height extenders (optional accessory)
- Cargo box dimensions 2 000 x 1 100 x 520 mm (820mm)

Product	Code
Trailer Offroad PRO 1200	86.10000
Accessories	Code
Cargo box extensions (+300mm)	86.2500
Lifting Crane	23.4000
Electric winch kit	06.000
Manual winch	OT.13.01.010
Waterproof PVC cover	86.4000

FLATBED DUMP TRAILER FD-1200

High load capacity (1200kg) flatbed dump trailer FD-1200 is designed to be used with small tractors and off-road vehicles (ATVs / UTVs). Thanks to its tandem axle construction, increased ground clearance and wider all-terrain tires, it allows access also through a rough terrain and off the roads. The flat bed cargo box, lifted by optional crane with winch, with completely removable side boards, allows it to use for transporting bulk spread or heating materials (e.g. firewood), pallets and boxes etc. Side-board extensions and water tank option can be installed as additional accessories.

- Load capacity 1200kg
- Flatbed dimensions 2080 x 1320 mm (82 x 52 in)
- Track width 1030mm
- Tandem axle with four wheels
- All-Terrain tires 22x11-8"
- 360° Swivel hitch coupler
- Adjustable support legs
- Tiltable cargo box
- Easily removable front, back, and side hatches.
- Weather proof plywood flatbed
- Tie-down anchors for ratchet straps

Product	Code
Flatbed Dump Trailer FD-1200	86.11000
Accessories	Code
Lifting crane	23.4000

TRAILER ECO 1500 3-WAY

The ECO 1500 3-WAY tiltable hydraulic trailer is a high-capacity, 1500 kg platform trailer to use with light tractors and off-road vehicles. The high ground clearance of the trailer and the wide all terrain tires ensure good accessibility and off-road capability. The hydraulically three-way tiltable – to back and to left & ride side - carrier and removable hatches allow the platform trailer to haul and tilt various materials to a suitable location. The power supply for the tilting hydro-electric power station (supplied) comes from the vehicle's electrical system or from a separate battery (not included) installed to the trailer.

- Load capacity 1500 kg
- Tandem axle with four wheels
- Off-road Tires 22x11-10"
- 360° swivel hitch coupler
- Cargo box is hydraulically tiltable three-way
- Removable side and tailgate
- Cargo box dimensions 2000 x 1300 x 400mm

Trailer ECO 1500 3-way	62.10000
Accessories	Code
Adjustable support leg with a wheel	62.0050
Cargo box extensions	62.1000

PALLET / TANK TRAILER

A multipurpose trailer designed for all-terrain vehicles and small tractors. A pallet to transport various load or a 600 liter IBC container to transport drinking water, irrigation water or other liquids can be placed and fixed to the trailer frame (800 x 600mm). Watering pipe and drinking troughs for animals can be installed as accessories.

- Load capacity 600kg
- Adjustable support leg
- Adjustable support wheel
- All-Terrain tires 22x11-8"
- Tie-down anchors for ratchet straps

Water tank 600L (IBC konteiner)	91.2000
Watering pipe 1400mm	91.1030
Drinking trough 55L	91.1020

FLAIL MOWER

ECO

A sturdily constructed, towable flail mower for mowing large lawns, meadows or roadsides. Mowers with different engine versions are available, depending on expected work conditions. Lower powered 14hp version are foremost meant for mowing smaller areas and shorter grass on regularly maintained fields and areas. We recommend mowers with larger V2 gasoline engines for larger areas, thicker and wilder grass and uneven surfaces. The mowers are fitted with Y-blades intended for mowing / rough cutting the thicker wilder grass by default. Hammer blades are available as an accessory and are suitable for mowing regularly maintained grounds with shorter grass.

- Working width 1150mm
- Cutting height 0–120mm
- Operating speed 2–10 km / h
- Easy to adjust cutting height
- Adjustable working position (behind the vehicle or offside to the sideways)
- Anti scalp rear roller to prevent cutting blades penetrating into ground on uneven surfaces
- Y blades for thicker grass or hammer blades for lawn mowing

Product	Code

BALE TRAILER

The compact design of the hay bale trailer and wide off-road tyres ensure good passage, off-road capability, for smaller jobs around the property, allowing the fast and easy transportation the bales of hay from fields to a storage or direct to animal stables, barns and feeding places. Trailer makes no notable damage to the terrain of fields and is easily maneuverable between trees, over ditches, through narrow or low doorways and in tight indoor spaces allowing access to places outside the reach of larger rigs.

The bale is loaded by backing the trailer to the roll, lowering the spikes using the manual winch, backing the trailer spikes into the roll and using the winch again to lift the bale. Unloading is just as simple and only requires lowering the bale with the winch and driving away.

The trailer can be pulled by all vehicles fitted with a 50mm/2" hitch ball. The trailer can also be pulled by a lawn tractor or other pin connection vehicles when fitted with a coupling eye (22.050S) provided as an accessory.

Product	Code
Bale trailer	43.0000
Accessories	Code
Electric winch package	06.000
Towing eye 360 degree turning for pin type hitch	22.050S

SILO & HAY BALE TRAILER

Trailer for transporting rolled silage and hay. Strong construction, tandem axle and wide terrain tires ensure a large load capacity and good terrain passage to allow for fast transportation of bales to barns, stables or feeding areas. Loading of the silage bales can be done with the assistance of lifting grips and raised with an electric winch.

- Load capacity 1000 kg
- Maximum bale diameter 1 500mm (60 inches)
- Off-road tires 22x11-8"
- 360° swivel hitch coupler
- Loading/unloading of bales with electric winch (2500 lbs)
- Automatic locking system
- Belt to fasten bales

Silo & Hay bay trailer	85.1000
Accessories	Code
Electric winch package	85.1050
Silo roller strap	OT.37.01.011

SWEEPER COLLECTOR

Sweeper Collector is an easy to use paddock cleaner, the perfect tool to keep the paddocks free of horse droppings but also great to clean/collect the dead grass, leaves, woodchips or cut grass. Sweeper brushes/bristles have grooming effect on the grass surface, keeping the grass fresh and healthy looking.

The sweeper is powered by an efficient 6.5hp Vanguard engine, rotary broom is fitted with durable OMNILINE polypropylene brushes/bristles, designed to operate in all different kind of cleaning conditions. Large capacity roll-over hopper collects up to 0.75m³ of material (220kg max load) and is very easy to empty with the aid of the winch, after which the well-balanced hopper returns into a working position automatically itself. Adjustable height spring tines rake helps to pre-loosen and spread the hardened/dry droppings etc. before the collection by the brushes to ensure clean result after.

Working height of the brushes is manually adjustable by default but the electric-hydraulic working height adjuster is also available as an option, allowing comfortable adjustments when operating the tool without leaving the seat. Sweeper/collector tool is an ideal product for private horse owners and small animal farms and zoos, equestrian centers, horse riding schools as well as the public area (parks, city streets, etc.) maintenance and facility management companies.

Sweeper Collector is a tow behind tool that installs to an ATV, UTV or any other vehicle with 50mm (2") ball type hitch fitted, makes the cleaning of large areas like paddocks, parking lots or parks quick and easy.

- Capacity (collector) 0.75m³ / max 220kg
- Working width 1200mm
- B&S Vanquard 6.5hp engine
- Replaceable OMNILINE polypropylene bristles
- Spring tine rake before the brushes to pre-loosen bigger pieces or hardened material for easier collecting
- Height adjustment with manual lifting mechanism or electro-hydraulic cylinder (optional)

RIDING ARENA LEVELER

The riding arena plow is intended for leveling and hoeing riding areas. The plow has spring spikes with an adjustable working height for surface hoeing. Adjusting the working angle of the side and rear plow blades allows for the surface at the edges of the riding arena to be shifted back to the middle. There are rubber edges and an adjustable perimeter wheel to protect the walls of a riding arena. The finishing roller compacts the soil, giving it a lovely, polished look.

The riding arena leveller can be towed by all vehicles equipped with a 50 mm/2" ball hitch unit and with a towing eyelet (22. 050S) installed as an optional accessory. The trailer can be also towed by hitching it to other vehicles equipped with a coupling device.

Setting the transportation position and operating depth is done with a manual lifting mechanism or a 12V electrohydraulic cylinder installed as an accessory.

Hydraulic cylinder 250/1400	71.3100

Disc harrow to break up hard soil, dry grass and turf, chop weeds or other soil preparation work.

Working width 1 400 mm (adjustable)

Spherical discs Ø 365 mm

Adjustable disc operating angle from -30° to 30°

Cultivator for weed removal or mixing soil prior to planting.

Working width 1 450 mm

Drag harrow for surface planning, soil tilling, smoothing and breaking up larger chunks of soil and readying the surface for seed sowing.

Working width 1 500 mm

Working depth 100 mm

A single bottom plow for plowing fields. By using this, soil is rotated to bring fresh nutrients to the surface while simultaneously burying weeds and previous crop residue in preparation for new sowing and planting.

A two bottom plow or earthing plow for ridging and earthing work.

A potato plow for digging up potatoes. The potato digging plow has metal rods that the soil passes through while the potatoes remain on the surface.

Landscape rake for soil preparation work, surface planing or field maintenance/cleaning.

Working width 1 450 mm
Working height 350 mm

Rear plow for surface planing or cleaning waste, leaves, snow etc., from different areas.

Working width 1 450 mm
Working height 300 mm
Working angle adjustable from -16° to 16°

Push broom to clean driveways, sidewalks, parking areas, squares, warehouses, barns etc., of waste, leaves, snow etc.

Working width 1 500 mm
Working height 250 mm
Working angle adjustable from -20° to 20°

DRAG HARROW

A harrow for breaking up soil or planning the surface. It is suitable to use with ATV and UTV off-road vehicles, small tractors or lawn tractors. Cutting or smoothing work position according to to which side down the harrow is pulled.

- Working width 1200mm
- Working depth 100mm
- Wire diameter 12mm
- Cutting or smoothing working position

Product	Code
Drag harrow	59.1000

LEVELER

A leveller is a simple steel net piece of equipment for levelling and planning large areas. It is suitable to use with ATV and UTV off-road vehicles, small tractors or lawn tractors. The leveller is suitable for preparing fields, lawns and prior- or post-processing the soil when seed planting. It is also suited for levelling light gravel and sand beds.

- Working width 1500mm
- Frame for mounting extra weight

Product	Code
Leveler	59.2000

FLIP OVER DISC

A disc harrow with a simple and strong construction for breaking up turf and weeds, as well as other soil-improving works. The transportation and working position are switched in between by turning the disc cultivator around. It is possible to add extra weight for ballast (sandbags etc.) to improve work effectiveness / cutting depth of the discs. The disc harrow is suitable to use with ATV and UTV off-road vehicles, small tractors or other vehicles fitted with a 50mm / 2" hitch ball.

- Working width 1500mm
- Working angle of 20 degrees
- Cutting depth 150-180mm
- Adjustable drawbar height (3 positions)
- Spherical discs 460mm in diameter (8 discs)

Product	Code
Flip over disc	51.1000

LANDSCAPE RAKE QUADIVATOR[®]

A landscape rake for tillage and planning the surface. Suitable for planning driveways and parking lots, the maintenance of riding grounds and animal shelters and for raking off the larger stones off the field. The working depth and transporting position is adjusted with a manual lifting mechanism (fitted by default) or a 12V electrical cylinder installed as an optional accessory. Suitable to use with a UTV / side by side vehicles and larger ATV-s, small tractor or other vehicles equipped with a 50mm hitch ball.

- Working width 1800mm
- Tine height 380mm
- Heat treated steel spring tines 380mm high (36pcs)
- 5 pivoting positions to adjust the working angle (-30 / -15 / 0 / 15 / 30)
- Rear mounted wheels have pinned axles allowing 4 different mounting positions on both sides, allowing to adjust the rake offset / diagonally to ground

Product	Code
Landscape rake	69.0000
Accessories	Code
Electro-hydraulic cylinder MAP	70.700
Electro-hydraulic cylinder JDR	70.500
Cable set (1-cylinder control)	70.2500

TWO-BOTTOM PLOW QUADIVATORTM

This towable plow with two one-sided blades is a professional agricultural tool for virgin soil or conventional plowing.

The plow has many settings. The position, work height, cutting angle and the drawbar position can be set, depending on the traction unit and plowing conditions. It is possible to set the position of the supporting wheels such that one wheel is in the furrow. It is possible, when plowing virgin soil, to place soil cutting disks in front of the blades and in the case of harder surfaces, it is possible to fix additional weight to the plow to ensure a better plowing result. The setting of the transportation position and work depth is done with a manual lifting mechanism or a 12V electrical cylinder installed as an accessory.

Suitable to use with a UTV / side by side vehicles and larger ATV-s, small tractor or other vehicles equipped with a 50mm hitch ball.

- Plowing width 300mm
- Adjustable furrow depth
- Exchangeable plow blades
- The drawbar position is adjustable according to the height of the traction unit
- The position of the plow is adjustable according to the traction unit track
- The position of the supporting wheels is adjustable for riding in the furrow
- Adjustable soil cutting disk

LAND ROLLER

Field or land roller to roll fields after plowing as well as compact after sowing or leveling work. The field roller mounted on an ATV coupling is an easy to maneuver and sufficiently light tool ideally suited for leveling small and medium-sized fields after plowing without the vehicle sinking into the ground and creating tracks. The roller can be filled with water to add weight to further compact and create a smooth and even surface.

- Working width 1 500 mm
- Roll diameter 475 mm
- Off-road tires 22x11-8"
- 360° swivel hitch coupler
- Weight 120 kg/380 kg (when filled with water)

Product	Code
Land roller	57.2000
Accessories	Code
Support wheels, pair	57.2050

GRADER / ROAD SCRAPER

A towable road scraper for gravel road levelling and surface planning. Road scraper is equipped with a frame for a 600x800mm pallet on to which a ballast weight can be placed - stones, sandbags etc. The transportation and working height positions are easily adjustable using support wheels. Electric or hydraulic control sets are available as accessories, these allow for the road scraper to be set into the transportation position without leaving the driver's seat.

- Working width 1800mm
- Double-sided toothed blade
- Frame for mounting ballast weight
- Adjusting in between transport and working position via support wheels
- Optional 12V DC electric or hydraulic height adjustment from driver's seat

Product	Code
Grader / Road scraper	44.0000
Spare parts	Code
Blade (steel S355, 10 mm)	44.1017
Blade (Hardox 400, 8 mm)	44.1017A

ELECTRO-HYDRAULIC CONTROL

Adjustable towbeam	71.5000
Hydraulic Power Unit	71.0000
Hydraulic cylinder with hoses	71.5100

TIMBER TRAILER IB 1200

IB 1200 is a solidly constructed timber trailer for use with small tractors or off-road vehicles. A compact solution, tandem axle and wide terrain tires ensure good terrain passage, allowing access to places that are typically inaccessible with larger gauge equipment. The adjustable length of the trailer allows logs up to 3 meters long to be transported. The timber trailer has rotatable and easily removable load posts that significantly simplify loading and unloading.

A crane with telescope construction support feet that hold the trailer firmly on the ground can be installed when loading and unloading a larger log to simplify the process. The length and height of the crane boom can be adjusted as required. The IB 1200 uses an electric winch powered by the battery of the vehicle towing it to drag and raise logs.

1400 L cargo box with removable extensions available as an option for the timber trailer. Crane with electric winch for tilting the cargo box.

- Load capacity 1 200 kg
- Crane lifting capacity 300 kg
- Tandem axle with four wheels
- Off-road tires 22x11-8"
- 360° swivel hitch coupler
- Adjustable supporting wheel
- Adjustable trailer length
- Rotatable and removable load posts

TIMBER TRAILER COMBO 1000 **ECO**

A multifunctional trailer for transporting logs, with additional accessories the trailer may also be used as a road scraper, boat trailer, water container or other goods carrier. A tandem axle and wide off-road tyres ensure good off-road passage allowing access to places often not accessible with larger vehicles..

- Load capacity 1000kg
- Tandem axle with four wheels
- Off-road Tires 22x12-8"
- 360° swivel hitch
- Rotatable and removable log bolsters

Product	Code
Timber Trailer COMBO 1000	79.1000
Accessories	Code
Cargo box	39.1000
Crane	79.2000
Electric winch kit	23.3100

Accessories box	86.3000
Adjustable support leg	61.3000

CRANE

Lifting capacity 150kg
Boom length 1200 ... 2200mm
Adjustable boom height
Adjustable support leg

**CARGO BOX**

Dimensions 1950x1000x550mm
Removable front and rear hatches

**ROAD GRADER**

Using the crane to adjust transport and working positions.
Working width 1500mm

BOAT CARRIER

Adjustable roller frame for towing a boat up to 4.5 meters. Comes with a hand winch for loading

WATER TANK CARRIER

Carrier frame for a standard 1000L IBC container. Spray bar with piping for road watering included

LOG SUPPORT

Crane boom-mounted support frame to facilitate log loading

LOG BOLSTERS

Additional pair of log bolsters for shorter log transport

SUPPORT LEG

Adjustable support leg
Capacity 300kg

LIFTING TONGS / LOG GRAPPLE

Lifting tongs for moving logs up to 350mm in diameter

HAND WINCH

Load capacity 725kg
Steel wire 5mm x 10m

ACCESSORIES BOX

Accessory box with a chain saw holder, mounted on the log guard grille

ELECTRIC WINCH

Load capacity 1134kg
Synthetic rope 5mm x 10m

LOG HAULER

The log hauler hitched to an ATV, UTV or any other kind of off-road vehicle forms a light and compact, easy-to-use transportation solution which can be used for hauling long logs out of the woods. It is easy to manoeuvre between trees and pass through wet areas and ditches with it towed behind the off-road vehicle and haul the logs out from areas where access with larger and heavier vehicles is restricted or would be more difficult.

A wheeled rear support allows to lift the rear end of the log so that it can be transported cleanly, without damaging the forest ground with the dragging log and without further damages to the log itself. The logs can be pulled and lifted clean into the hanging position with the choice of either a manual or electrical winch set.

The log hauler set includes a hanging system for transporting logs with a larger diameter. A rotating carrier frame for smaller logs is available as an additional accessory. The carrier frame is for loading the smaller logs, branches, brush etc.

- Load capacity 500kg (1000kg combined capacity with the rear support used)
- Strong, rigid steel square tube frame 50 x 50 x 3 mm construction.
- Maximum log diameter 50 cm / 20"
- Off-road tires 22x11-8"
- 360 ° swivel hitch
- Hand winch or electric winch option to pull logs out of the forest
- Chains for hanging logs and carabiners for fastening
- Optional rotating carrier frame for transporting smaller logs
- Optional rear support

Product	Code
Log hauler	31.0000
Rear support	31.5000
Accessories	Code
Electric winch kit	31.3000
Manual winch kit	31.4000
Rotating carrier frame	31.6000

HAND WINCH

Pull force 725kg
Steel wire 5mm x 10m

ELECTRIC WINCH

Pull force 1134kg
Cord 5mm x 10m

ROTATING CARRIER FRAME

For transporting smaller logs or twigs

WOOD CHIPPER G1

A wood chipper with a drum cutting method to produce wood chips from branches or smaller diameter trees. This can be used to cover sidewalks as mulch, for heating, etc. The compact size of the chipper ensures that it is easy to maneuver when mounted on an off-road vehicle. It can thus be used in dense or other hard to reach areas without damage to the surface. It is suitable for small-scale forestry work as well as park and real estate maintenance.

- Cutting method — drum
- Productivity 4–6 cbm / h
- Wood max diameter 120mm
- Engine 14hp (B&S 2100 XR Series)
- 360 ° swivel turning ejection tube

Product	Code
Wood chipper G1	76.0000
Spare parts	Code
Belt	76.0001
Clutch kit	76.0002
Cutting blades kit	76.0003

WOOD CHIPPER G2

With a disc shaft (flywheel) cutting method, this high-yield wood chipper can produce wood chips from branches or smaller diameter trees. The compact size of the chipper, wide track width and the large terrain tires ensure good terrain passage. It is easily maneuvered in dense or other hard to reach areas without damage to the surface.

- Cutting method – disc shaft
- Max. diameter of wood 120 mm
- Motor 14hp (B&S 2100 XR Series)
- 360° rotatable and directable exit spout
- Terrain tires 19x7.00-8"

Product	Code
Wood chipper G2	76.5000

Belt	76.5006
Clutch kit	76.0002
Cutting blades kit	76.5002S

LEAF VACUUM

The leaf vacuum trailer is for personal, domestic use or public, communal service providers to clean and maintain the yards, parks, squares and roads from leaves, to collect grass, litter etc. The equipment allows quick and easy cleaning of large areas by collecting the leaves or mowed grass into the trailer's cargo box and transporting them to the desired location for unloading.

The leaf vacuum is equipped with a reliable 6hp Briggs & Stratton engine that is used to run a durable turbine 4 blade impeller made from Hardox 400 steel, with a productivity of 70m³/h. The product is equipped with a suction tube with a diameter of 180mm and a length of 3.5m, with a light and convenient wheeled nozzle.

The product set consists of the BASIC 500 (61.1000) modified trailer and the leaf vacuum module (81.2500) attached to it. The leaf vacuum module (vacuum, load surface grille, PVC cover) is easy to install onto the trailer and can easily be removed for the off-season period so that the trailer may be used for other purposes as well if desired.

- Cargo box capacity 1.2m³
- Vacuum productivity 70m³ / min
- Load capacity 500kg
- Engine 6hp Briggs & Stratton
- Off-road tires 22x11-8"
- Flexible suction tube diameter 180mm / length 3.5m
- Oils and biological acids resistant suction tube materials
- Tilttable cargo box
- Removable PVC cover and hatches
- Adjustable support leg

Product	Code
Leaf Vacuum Trailer	81.2000

HYDRAULIC POWER UNIT

The compact, electric motor-powered hydraulic unit is for ATV / UTV coupling devices. The hydraulic station has two $\frac{1}{4}$ " quick release hydraulic couplers, to which it is possible to attach cylinders for turning and lifting the snow plow, controlling the bucket or setting the working positions of other coupled equipment. Allows to use the "free floating" option on one cylinder - good to use on a plow up-down movement cylinder. The unit is controlled via a radio remote control which can be mounted to the vehicle's control panel or any other convenient location using the supplied mounting bracket. The electrical power for the equipment to be taken from the electrical system of the vehicle.

- Productivity 2.8 l / min (0.45cm³ / rev)
- Operating pressure 180 bar
- Motor 800W / 12V DC
- Oil tank 1 liter
- Hydro output 2 x $\frac{1}{4}$ "
- Wireless / remote switch

ELECTRO-HYDRAULIC CYLINDER

Compact electro-hydraulic cylinders are intended for exterior use, for setting the work and transport positions of different products. The product can easily be transferred from one piece of equipment to the other. The 12V DC power it requires to operate, taken from the electrical system of the vehicle. The selection includes MAP (Korea) and JDR (China) cylinders as well as different sets of control panels with power cables.

- Pull force 1800lbs (816kg)
- Cylinder rod diameter 20mm
- Mounting eye diameter 16mm
- Mounting gap min 380mm
- Stroke 250mm
- Power supply 12V DC

ONE CYLINDER CONTROL KIT

Control panel set with power cables and mounting devices for controlling one electro-hydraulic cylinder.

TWO CYLINDERS CONTROL KIT

Control panel set with power cables and mounting devices for controlling two electro-hydraulic cylinders.

HITCH RECEIVER RACK

The hitch receiver rack is an easy to use accessory for transporting trimmers, shovels, rakes or other tools. The product can easily be attached to vehicles with a 50mm / 2" hitch receiver. The rack set includes 2 quick-release clamps that can be used for attaching tools with diameter up to 50mm and weight up to 20kg to the rack. The adjustable height of the rack and 10 different positions for installing the quick release clamps allows transporting the tools with different lengths and shapes. The set additionally includes, attached to the rack, a steel wire basket (468x268x342mm) that can be used for transporting a petrol canister or other similar goods.

Product	Code
Hitch receiver rack	14.10870

CHAINSAW HOLDER

A universal adjustable chain saw holder that is easy to install and remove. The holder, made from durable plastic, has a socket that fits most sizes of chain saw guide plates and does not damage the chain. The chainsaw holder can be attached to the front or rear rack of an ATV or UTV or to other vehicles equipped with a suitable tubular mounting point using U-clamps. The bolted connection version is ideally suited for attaching to trailer cargo boxes or cases etc.

Product	Code
Chainsaw holder (tubular frame)	14.7000
Chainsaw holder (bolted connection)	14.7200

QUICK RELEASE CLAMPS

Universal quick-release clamps for fastening tools with a diameter up to 50mm. The product selection includes clamps for tubular material racks or versions with an anchor connection for attaching to CFMOTO and POLARIS or any other racks with matching mounting hole diameter and depth.

Product	Code
Quick release clamps (frame connection)	14.10850
Quick release clamps POLARIS (anchor connection 25mm)	14.10860
Quick release clamps CFMOTO / SEGWAY (anchor connection 22mm)	14.11050

TUBULAR FRAME CONNECTION

For installation on round products up to 26mm in diameter

TIE DOWN ANCHOR (POLARIS)

For installation in openings with a diameter of 25 ... 30mm

ANCHOR MOUNT (CFMOTO / SEGWAY)

For installation on luggage racks and cargo boxes of CFMOTO or SEGWAY plastic 'lock&-ride' mounting holes.

ECCENTRIC CLAMP

Eccentric clamps with anchor connection for attaching accessories to POLARIS or CFMOTO luggage racks.

Product	Code
Eccentric clamp POLARIS (anchor connection 25mm)	14.10000
Eccentric clamp CFMOTO / SEGWAY (anchor connection 2mm)	14.11000

ECCENTRIC CLAMP (POLARIS)

For installation in openings with a diameter of 25 ... 30mm

ECCENTRIC CLAMP (CFMOTO / SEGWAY)

mounting on CFMOTO plastic lock & ride luggage racks. Mounting hole 22mm

WINCH ROPE FAIRLEAD

Aluminum alloy winch synthetic rope slider for mounting on winches with a pulling power up to 3500lbs. Mounting hole spacing 124mm. Dimensions 160x55mm

Product	Code
Winch rope fairlead	14.001

LOADING RAMPS

Aluminium foldable loading ramps
Load capacity 550kg / pair
Length 2200mm
Width 280mm

Product	Code
Loading ramp	01.500

BED WALL EXTENDERS

Bed wall extenders ensure stability and safety, even in case of higher loads. The front part of the extender has a steel net heightened safety barrier that protects the driver from possibility of shifting loads in the case of sharp braking or accidents.

BRP Can-Am	Code
Bed wall extender Can-Am Outlander 6x6	14.10700
Polaris	Code

CAN-AM G2 RENEGADE LUGGAGE RACK

The luggage rack, constructed for Can-Am Renegade models, consists of a 15mm thick plastic grille with a carrier frame made from strong aluminium alloy. This setup forms a light rack kit that is still extremely durable. The rack is suitable for all Can Am G2 Renegade models and is attached to the ATV using four bolts. It is possible to attach additional accessories, such as the Iron Baltic universal baskets and cases to the rack.

BRP Can-Am	Code
Renegade G2 500/570/800/850	14.1200

MULTI-MOUNT WINCH

This compact electric winch set can be installed in a 2" receiver or on a universal mounting plate with U-clamps in a suitable location.

The set includes the electric winch X2500S.

- Pulling force 1134 kg (2500 lbs)
- Motor 1kw, 12V DC
- Transmission 138:1
- Pulling speed 2.1 – 7.5 m/min
- Strong nylon cord 6.3 mm x 12 m (0.24 in x 39 ft)
- Wireless remote control and wired standby switch
- Line guide with large base roller

Product	Code
Multi-Mount Winch kit	14.11500

EQUIPMENT BOX

The steel made equipment box with a universal design solution is for installation on POLARIS SPORTSMAN models but is suitable for attaching to front and rear racks of other ATV models as well. The product's separating inner walls have adjustable locations and the bottom is covered with a rubber that prevents slipping. The box is attached to the rack using U-clamps that come with the set or with eccentric clamps that can be ordered as an additional accessory.

The equipment box can be ordered, if desired, together with the universal chainsaw holder. The holder, made from durable plastic, has a socket that fits all sizes of saw chain guide plates.

A PVC cover for the equipment box, which protects the box contents from rain, snow or dirt, is available as an optional accessory.

Product	Code
Equipment box	56.5000
Equipment box with chainsaw holder	56.6000

CLUTCH KITS

Performance of all-terrain vehicles and utility terrain vehicles is largely dependent on the set-up of the clutch system of the vehicle. Factory fitted original clutches are calibrated for the standard factory fitted tyres and suspension, and for universal use of the vehicle. If you wish to use your vehicle on more specific occasions or in more demanding conditions, such as for complicated farming or gardening works or for towing or carrying heavier loads, or you want to use oversize wheels and tyres for better off-road capabilities or even go racing, then your vehicle's clutch system needs a different set-up, to match the use of the vehicle.

For these purposes we have developed and offer 3 different types of clutch kits.

Stage 1 - comfort, work & trail riding

Stage 1 clutch kit is an excellent choice for trail riding, occasional mud and sand riding, ploughing and hauling. Our most popular, best all-around use kit helps to transfer the engine power to the wheels better, so you can use the engine's potential more effectively and the vehicle runs smoother, with the harsh take offs reduced.

Stage 2 – muddy & big heavy tires

Stage 2 clutch kits have been developed for riding with oversize, heavier mud tires. It reduces belt slipping and protects the clutch from overheating. It also gives better low-end power and torque which results in crisp throttle response.

Stage 3 - PRO series for trail and race

Stage 3 clutch kits have been developed for riding with stock size - factory fitted tyres, resulting in faster acceleration and top speed. This kit makes it easier to perform a wheelie. It is the best choice for fun and racing.

Model	Tires			
	25"-27"	28"-32"	25"-27"	29"-34"
	Stage 1	Stage 2	Stage 3	
CFORCE 450/520		80.900

MODEL SPECIFIC MOUNTING KITS

FRONT-MOUNT ADAPTERS

Model specific adapters for mounting front-mount system.

MID-MOUNT ADAPTERS

Model specific adapters for mounting mid-mount system.

FRONT WINCH MOUNTING KITS

Model specific adapters for „WARN “ or „Bronco“ type of ATV winches with mounting pattern of 76x124mm

REAR WINCH MOUNTING KITS

Model specific adapters for „WARN “ or „Bronco“ type of ATV winches with mounting pattern of 76x124mm

HITCH BALL MOUNTING KITS

Model specific reinforced design rear hook adapters. Most kits include a 50 mm hitch ball and a 16mm pin connection.

LIFT CYLINDER ADAPTERS

Model specific adapters for installing hydraulic and electro-hydraulic cylinders for up-down movement of plows, push brooms and buckets.
